

Rolling 12-Month Performance Report for the NY-508 CoC

7/1/2025 – 6/30/2026

Data taken from HMIS on 7/20/2026

About This Report3

Glossary of Acronyms and Term Definitions 4

Permanent Supportive Housing (PSH) Projects2

PSH is permanent housing in which housing assistance (e.g. long-term leasing or rental assistance) and supportive services are provided to assist households with at least one member (adult or child) with a disability in achieving housing stability.

Rapid Re-housing (RRH) Projects..... 13

RRH is permanent housing that provides short-term (up to three months) and medium-term (4-24 months) tenet-based rental assistance and supportive services to households experiencing homelessness.

Transitional Housing (TH) Projects 23

TH provides temporary housing with supportive services to individuals and families experiencing homelessness with the goal of interim stability and support to successfully move to and maintain permanent housing.

Emergency Shelter (ES), Street Outreach (SO) and Supportive Services Only (SSO) Projects30

Emergency Shelters are any facility, the primary purpose of which is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless.

Street Outreach activities are designed to meet the immediate needs of people experiencing homelessness in unsheltered locations by connecting them with emergency shelter, housing, or critical services, and providing them with urgent, non-facility based care.

Supportive Services Only projects provide supportive services, such as conducting outreach to sheltered and unsheltered homeless persons and families and providing referrals to other housing or other necessary services, to families and individuals experiencing homelessness. These projects do not provide housing or housing assistance.

Projects In This Report..... 39

About This Report

This report is created using Homeless Management Information System (HMIS) data. It covers homeless service projects who use HMIS within the NY-508 CoC – Erie, Niagara, Genesee, Orleans, and Wyoming counties. Most data/measures in this report are obtained from the Annual Performance Report (APR) and matched to HUD Longitudinal Systems Analysis (LSA) and System Performance Measures (SPM). The intent of this is to:

1. Provide timely feedback to projects to improve their services and to learn from each other,
2. Help funders make funding decisions based upon performance, and
3. To evaluate our CoC's system performance.

Many of the charts in this report have a colored background associated with a local benchmark. These were designed specifically for projects that receive HUD CoC funding and indicate the current performance goal for that measure. Agency Administrators are encouraged to monitor their project's performance on these measures throughout the year and address low data quality and/or low performance immediately.

If you have any questions, please contact the Homeless Alliance of WNY Quality Assurance Coordinator, Katey Soellers, at soellers@wnyhomeless.org.

Glossary of Acronyms and Term Definitions

APR: refers to the Annual Performance Report, an on-demand report of a project's HMIS data

CoC: Continuum of Care

ES: Emergency Shelter

ESG: Emergency Solutions Grant

HMIS: Homeless Management Information System

HUD: United States Department of Housing and Urban Development

Inactive Records: refers to clients whose Current Living Situation was last updated over 90 days before the client's exit date or the last day in the reporting period.

Leavers: refers to clients who exited a project during the reporting period.

NAEH: The National Alliance to End Homelessness

NY-508: The HUD designation for the Western New York CoC, the cities of Buffalo and Niagara Falls and Erie, Niagara, Genesee, Orleans, and Wyoming Counties

PATH: Projects for Assistance in Transition from Homelessness

PH: Permanent Housing

PII: Personally Identifiable Information

PSH: Permanent Supportive Housing for Formerly Homeless Persons

RRH: Rapid Re-housing

SO: Street Outreach

SSDI: Social Security Disability Insurance

SSI: Supplemental Security Income

SSO: Supportive Services Only

TANF: Temporary Assistance for Needy Families

TH: Transitional Housing

UDEs: refers to Universal Data Elements which are elements that all projects using HMIS must collect

Cash benefit in this report refers to income such as: unemployment insurance, SSI, SSDI, veteran's disability, private disability insurance, worker's compensation, TANF, general assistance, retirement, veteran's pension, pension from a job, child support, and alimony (spouse support).

Excluded Leavers in this report refers to clients who have passed away and those who exited to the following destinations: foster care, hospital, and long-term care facility or nursing home.

Permanent Housing Destination in this report refers to destinations such as: housing owned by client (with or without ongoing subsidy), housing rented by client (with or without ongoing subsidy), permanent supportive housing for formerly homeless persons, and living with family or friends with permanent tenure.

Unsubsidized Permanent Housing Destination in this report refers to a sub-set of the Permanent Housing Destination, those where the client is no longer receiving a housing subsidy, such as: housing owned by client (without ongoing subsidy), housing rented by client (without ongoing subsidy), and living with family or friends with permanent tenure.

Positive Destination in this report refers to destinations such as: all permanent housing destinations listed above, emergency shelter, transitional housing for homeless persons, staying with family or friends with temporary tenure, Safe Haven, hotel or motel paid by client, foster care, psychiatric facility, substance abuse or detox facility, and hospital (non-psychiatric).

Permanent Supportive Housing (PSH) Projects

PSH is permanent housing in which housing assistance (e.g. long-term leasing or rental assistance) and supportive services are provided to assist households with at least one member (adult or child) with a disability in achieving housing stability.

PSH Performance Measures

HMIS Data Quality.....	3
Housing Measures	
Maintained Permanent Housing.....	4
Positive Turnover Rate	5
Exits to Unsubsidized Permanent Housing	6
Time to Permanent Housing	7
Returns to Homelessness.....	8
Utilization Rate	9
Income Measures	
Increased Earned Income (Leavers)	10
Increased Earned Income (Stayers)	11
Increased Other Income (Leavers)	12

HMIS Data Quality

This measure gives a broad overview as to how timely and complete each project's data in HMIS is. The Data Quality sections of the APR for PII, UDEs, Income and Housing, Chronic Homelessness, and Timeliness are considered. 100% Data Quality indicates that the project is meeting the local benchmark of less than 5% issue rate in each Data Quality row and more than 50% of entries and exits entered within 3 days.

Data Quality (PSH)

Maintained Permanent Housing

This measure is calculated by adding the number of clients who remained in each PSH project and the number of clients who exited to PH and dividing that by the total number of clients served (minus excluded leavers). The local benchmark for this measure is the HUD benchmark of 96% or greater.

Positive Turnover Rate

This measure is calculated by dividing the number of clients who exited to PH by the total number of clients served (minus excluded leavers). The local benchmark for this measure is 10% or greater.

Exits to Unsubsidized Permanent Housing

This measure is calculated by dividing the number of clients who exited to Unsubsidized PH by the total number of leavers (minus excluded leavers). The local benchmark for this measure is 40% or greater.

Time to Permanent Housing

This measure is the average number of days from the project entry date to the permanent housing move-in date for all clients with a move-in date within the reporting period. The local benchmark for this measure is 35 days or less.

Days from Entry to Move-In (PSH)

Returns to Homelessness

This measure looks at those clients who exited to PH between 1/1/2025-6/30/2026 and returned to homelessness (measured by a new entry date at a service project) within the following six months, beginning on 7/1/2025. The local benchmark for this measure is 9% or less.

Returns to Homelessness After Exiting to PH (PSH)

Utilization Rate

This measure is calculated by dividing the number of households receiving services on the last day of the reporting period by the number of households that the project can serve at any one time.

Utilization on Last Day of Reporting Period (PSH)

Increased Earned Income (Leavers)

This measure is calculated by dividing the number of adult leavers who increased or gained employment income from their project entry date to their project exit by the number of adult leavers with income information. The local benchmark for this measure is 25% or greater.

Adult Leavers with Increased Earned Income (PSH)

Increased Earned Income (Stayers)

This measure is calculated by dividing the number of adult stayers who increased or gained employment income from their project entry date to their most recent Annual Assessment by the number of adult stayers with income information. The local benchmark for this measure is the HUD benchmark of 20% or greater.

Adult Stayers with Increased Earned Income (PSH)

Increased Other Income (Leavers)

This measure is calculated by dividing the number of adult leavers who increased or gained non-employment income from their project entry date to their project exit by the number of adult leavers with income information.

Adults Leavers with Increased Other Income (PSH)

Rapid Re-housing (RRH) Projects

RRH is permanent housing that provides short-term (up to three months) and medium-term (4-24 months) tenet-based rental assistance and supportive services to households experiencing homelessness.

HMIS Data Quality

This measure gives a broad overview as to how timely and complete each project's data in HMIS is. The Data Quality sections of the APR for PII, UDEs, Income and Housing, Chronic Homelessness and Timeliness are considered. 100% Data Quality indicates that the project is meeting the local benchmark of less than 5% issue rate in each Data Quality row and more than 50% of entries and exits are entered within 3 days.

Exits to Permanent Housing

This measure is calculated by dividing the number of clients who exited to PH by the total number of leavers (minus excluded leavers). The local benchmark for this measure is 90% or greater.

Exits to Unsubsidized Permanent Housing

This measure is calculated by dividing the number of clients who exited to Unsubsidized PH by the total number of leavers (minus excluded leavers). The local benchmark for this measure is 50% or greater.

Time to Permanent Housing

This measure is the average number of days from the project entry date to the permanent housing move-in date for all clients with a move-in date within the reporting period. The NAEH benchmark for this measure is 30 days or less. The local benchmark for this measure is 35 days or less.

Days from Project Entry to Move-In (RRH)

Returns to Homelessness

This measure looks at those clients who exited to PH from a service project between 1/1/2025-6/30/2026 and returned to homelessness (measured by a new entry date at a service project) within the following six months, beginning on 7/1/2025. The local benchmark for this measure is 9% or less.

Returns to Homelessness After Exiting to PH (RRH)

Utilization Rate

This measure is calculated by dividing the number of households receiving services on the last day of the reporting period by the number of households that the project can serve at any one time.

Increased Earned Income (Leavers)

This measure is calculated by dividing the number of adult leavers who increased or gained employment income from their project entry date to their project exit by the number of adult leavers with income information. The local benchmark for this measure is 40% or greater.

Adult Leavers with Increased Earned Income (RRH)

Increased Earned Income (Stayers)

This measure is calculated by dividing the number of adult stayers who increased or gained employment income from their project entry date to their most recent Annual Assessment by the number of adult stayers with income information. The local benchmark for this measure is the HUD benchmark of 35% or greater.

Adult Stayers with Increased Earned Income (RRH)

Increased Other Income (Leavers)

This measure is calculated by dividing the number of adult leavers who increased or gained non-employment income from their project entry date to their project exit by the number of adult leavers with income information.

Adults Leavers with Increased Other Income (RRH)

Transitional Housing (TH) Projects

TH provides temporary housing with supportive services to individuals and families experiencing homelessness with the goal of interim stability and support to successfully move to and maintain permanent housing.

TH Performance Measures

HMIS Data Quality..... 24

Housing Measures

Exits to Permanent Housing..... 25

Returns to Homelessness..... 26

Utilization Rate 27

Length of Stay (Leavers)..... 28

Length of Stay (Stayers)..... 29

HMIS Data Quality

This measure gives a broad overview as to how timely and complete each project's data in HMIS is. The Data Quality sections of the APR for PII, UDEs, Income and Housing, Chronic Homelessness, and Timeliness are considered. 100% Data Quality indicates that the project is meeting the local benchmark of less than 5% issue rate in each Data Quality row and more than 50% of entries and exits entered within 3 days.

Data Quality (TH)

Exits to Permanent Housing

This measure is calculated by dividing the number of clients who exited to PH by the total number of leavers (minus excluded leavers).

TH Clients Exited to PH

Returns to Homelessness

This measure looks at those clients who exited to PH between 1/1/2025-6/30/2026 and returned to homelessness (measured by a new entry date at a service project) within the following six months, beginning on 7/1/2025.

Clients Returning to Homelessness After Exiting to PH (TH)

Utilization Rate

This measure is calculated by dividing the number of households receiving services on the last day of the reporting period by the number of households that the project can serve at any one time.

Utilization on Last Day of Reporting Period (TH)

Length of Stay - Leavers

This measure is the average length of stay in TH projects among clients who exited the project within the reporting period.

Length of Stay - Stayers

This measure is the average length of stay in TH projects among clients who did not exit the project within the reporting period.

Emergency Shelter (ES), Street Outreach (SO) and Supportive Services Only (SSO) Projects

Emergency Shelters are any facility, the primary purpose of which is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless.

Street Outreach activities are designed to meet the immediate needs of people experiencing homelessness in unsheltered locations by connecting them with emergency shelter, housing, or critical services, and providing them with urgent, non-facility based care.

Supportive Services Only projects provide supportive services, such as conducting outreach to sheltered and unsheltered homeless persons and families and providing referrals to other housing or other necessary services, to families and individuals experiencing homelessness. These projects do not provide housing or housing assistance.

- HMIS Data Quality..... 31
- Inactive Clients (SO & SSO)32

Housing Measures

- Exits to Permanent Housing (ES & SSO).....33
- Exits to Positive Destinations (SO).....34
- Returns to Homelessness.....35
- Utilization Rate (ES)..... 36
- Length of Stay (ES Leavers) 37
- Length of Stay (ES Stayers)..... 38
- Length of Stay (SO & SSO Leavers) 39
- Length of Stay (SO & SSO Stayers).....40

HMIS Data Quality

This measure gives a broad overview as to how timely and complete each project's data in HMIS is. The Data Quality sections of the APR for PII, UDEs, Income and Housing, Chronic Homelessness, and Timeliness are considered. 100% Data Quality indicates that the project is meeting the local benchmark of less than 5% issue rate in each PII and UDE row (excluding Disabling Condition), less than 10% issue rate in the Disabling Condition row, each Income and Sources row, and the Chronic Homelessness row, less than 25% issue rate in the Destination row, and more than 50% of entries and exits entered within 3 days.

Data Quality (ES, SO, and SSO)

Inactive Clients (SO & SSO)

This measure is the percentage of Adult and Head of Household clients whose last contact (as documented as the Current Living Situation) was over 90 days before the client’s exit date or the last day of the reporting period (6/30/2026).

Exits to Permanent Housing (ES & SSO)

This measure is calculated by dividing the number of clients who exited to PH by the total number of leavers (minus excluded leavers).

Exits to Positive Destinations (SO)

This measure is calculated by dividing the number of SO clients who exited to a positive destination by the total number of leavers (minus excluded leavers).

Outreach Clients Exits to Positive Destinations

Returns to Homelessness

This measure looks at those clients who exited to PH between 1/1/2025-6/30/2026 and returned to homelessness (measured by a new entry date at a service project) within the following six months, beginning on 7/1/2025.

Returns to Homelessness after Exiting to PH (ES, SO, & SSO)

Utilization Rate (ES)

This measure is calculated by dividing the number of households receiving services on the last day of the reporting period by the number of households that the project can serve at any one time.

Length of Stay – ES Leavers

This measure is the average length of stay in ES projects among clients who exited the project within the reporting period.

Average Length of Stay for Leavers (ES)

Length of Stay – ES Stayers

This measure is the average length of stay in ES projects among clients who did not exit the project within the reporting period.

Average Length of Stay for Stayers (ES)

Length of Stay – SO & SSO Leavers

This measure is the average length of stay in SO and SSO projects among clients who exited the project within the reporting period.

Average Length of Stay for Leavers (SO & SSO)

Length of Stay – SO & SSO Stayers

This measure is the average length of stay in ES, SO, and SSO projects among clients who did not exit the project within the reporting period.

Average Length of Stay for Stayers (SO & SSO)
